Meet our Orthopaedics Team

We're delighted to welcome two new members to our Orthopaedics team. Jan Janovec joins us as Head of Orthopaedics. Jan enjoys all aspects of small animal orthopaedics and has a special interest in fracture management, joint replacement and revision surgery. Orthopaedic Specialist Vincent Guerin also joins the team this month. Vincent has a particular interest in fracture repair, stifle surgery and elbow arthroscopy. See their full profiles on our team page.

MEET THE TEAM

FIND OUT MORE

Neurology

Our *Slipped Disc fact sheet* was our most popular fact sheet in 2019, with the *Myositis fact sheet* coming a close second. Visit our website's Neurology page to access these and many more fact sheets covering neurological conditions, plus a *new case study on Codo*, a British Blue cat who recently had laser assisted brain surgery at Davies.

FIND OUT MORE

Soft Tissue Surgery

Our Soft Tissue team have been in the news recently with two cases featured in the Vet Times. Soft Tissue Surgeon Smita Das operated to *remove a large stone from Chandler the cat's trachea*. The team also performed *pro bono surgery for Keril, a sphynx kitten*, following a diagnosis of severe hydronephrosis and hydroureter. Visit the Soft Tissue Surgery page on our website to find out more.

Our Patient of the Month

Scooby was admitted for further investigation of a sub-acute onset, progressive, non-ambulatory tetraparesis. Following spinal surgery and a month of intensive physio and hydrotherapy he was back on his feet again. Our nursing team nominated Scooby for patient of the month as he always had a waggy tail and never made a fuss during his treatment.
